## Peay's Election.

The election of Mr. Austin Peay to be Governor of Tennessee ought to be accomplished several very wholesome things both as effecting the welfare of the state and the future solidarity of the Democratic party. It ought to end factionalism by driving all the factionalists out of the party. Mr. Peay made his campaign on very definite policies—policies which he frankly and courageously announced and which, we may be sure, he will, with the help of a "friendly" Legislature, be able to carry out. The chief reform to which he committed himself was relief of the people in the matter of taxation and the overhauling of the tax laws so as to bear equally on all. He was likewise committed to a program for remodeling the back-tax laws so as to remove so important a function from political machinery and to put it on a business basis, purely. He will also stand for and will, doubtless, secure the passage of legislation reducing useless offices, bureaus, inspectorships, etc., with which the administration is now burdened and thus to coordinate and consolidate official duties as to reduce the expense account of government to an economical level.

For the Democratic party, his election promises the elimination of Crumpism—which is bossism run to the limit of offense—and the disciplining of the Nashville Banner and the little group of malcontents it appears to have controlled in Davidson county, so that hereafter they "will have little if any voice in the control and management of Democrat affairs. None complains that the Nashville Banner did not have a right to support whom it pleased as an independent newspaper, but as an independent Democratic newspaper it had not the slightest just of fair reason for opposing Peay, especially since it had gone into a Democratic primary and had sought to secure the nomination of its favorite. Its reasons for opposing Mr. Peay were factitious and purely selfish, and it cannot plead the "freedom of opinion" in justification because there was absolutely no basis for it. It will be a hopeful thing if the Banner should forego with the Republicans hereafter, because it will not be a bad thing to have a strong and active opposition in the state. It is doubtful, however, whether the Republicans would welcome that newspaper to its ranks, because they would never know when it might "play the game" for the opposition on some such trumped up reasons as it gave for seeking to defeat the Democratic party at this election.

It may be said, in any event, that the election of Austin Peay not alone means the redemption of Tennessee for the Democratic party, but it means the redemption of the Democratic party from the influence of pretenders, pretty selfish politicians and treacherous "friend."—Chattanooga Times.

Every man has an inalienable right to work—but some do not insist on exercising all their prerogatives.

## THE UNIVERSAL MENACE!

More people over forty years of age die of CANCER than of pneumonia, tuberculosis, or typhoid fever. ONE WOMAN IN EIGHT and ONE MAN IN FOURTEEN, over forty, dies of CANCER. This high death rate shows that CANCER is a menace to every one; your family, you. The menace of CANCER lies in the fact that it does not cause pain in the first stages. Its victims, therefore, do not know that they have CANCER until the disease is well developed.

## THE DANGER SIGNS.

EXTERNAL CANCER—CANCER on the outside of the body, which can be seen or felt often begins as a wart, mole, lump or scab LUMPS ON THE

Show girls are great for paint, but almost any woman who paints makes a show of herself.

There some wrongs that cannot be adequately punished. One of the most glaring of these is the untruthful gossip that hurts a woman's character.

In the marriage lottery every man draws a prize and every woman a blank.

A man who gets in a hole may be just filling his position in life.

Sometimes a man doesn't realize his own faults until elected to office.

A man that makes his wife and family completely happy comes pretty near being a Christian.

The noise being made by several presidential booms is keeping no one awake night.

The trouble about winning a person by flattery is that you have to keep at it so continuously that he soon gets suspicious.

There is more religion in a square meal to a hungry man than in the meatiest sermon ever preached.

There are 261 lawyers in congress—and a lot of others who think they know what the people ought to want.

A Minnesota jury recently awarded a Hibbing woman \$4750 for a stolen kiss. That jury evidently believes in the conservation of our natural resources.

A person can smoke only about so many cigarettes in a lifetime. The more he smokes the fewer days it will take him.

When a man has provided food and raiment for his family he has not provided over half what they have a right to expect of him.

When a woman asks her husband what to do about a certain thing, an argument is about to begin.

A Candidate never consents to run except upon the earnest solicitation of scores of friends who forget to get out to the polls.

## BREAST ARE ESPECIALLY SUSPICIOUS. CANCER may

develop from an unhealed wound, a sore, or even an old scar. If you have any of these abnormal developments, WATCH them. If they change in appearance or size.

SEE A DOCTOR AT ONCE! DO NOT WAIT UNTIL THEY CAUSE PAIN.

INTERNAL CANCER—CANCER on the inside of the body may be known by signs before any lump is seen or felt. Increased or irregular discharge, or return of flow after change of life in women; and blood at any time in the urine of men are suspicious. Cancer of stomach and bowels is more difficult to discover. Avoid constipation; correct chronic indigestion; do not neglect piles.

IF YOU HAVE ANY OF THESE SIGNS SEE A DOCTOR AT ONCE.

Governor-elect Austin Peay will be the guest of the Nashville Chamber of Commerce at a dinner and reception early in January prior to his inauguration. Before the legislature convenes the governor to be will meet the Chamber of Commerce governors to consider a measure backed by the state chambers of commerce seeking to reorganize state departments along progressive lines.

An executive committee has been named by the recently organized Tennessee Fish and Game Association to enable the organization to function throughout the state and to have the various sections united in uniform and progressive fish and game laws to be presented to the coming legislature for passage. Judge W. C. Cherry of Nashville, is chairman of the legislative committee.

The law creating the state board of medical examiners has been declared unconstitutional by Chancellor Heiskell of Memphis who holds the law invalid on the ground that due notice shall be given before a license can be revoked. The decision is based on like decision in Georgia and other states where the matter of notice previous to revoking a license was involved.

Already preparations are being made to provide a schedule of more and better football games next season for the great Vanderbilt stadium, the first in the South. Games so far have been arranged with the University of Tennessee, the University of Georgia and the usual Thanksgiving contest with Sewanee. The Sewanee game is now the only other remaining big game this season. Next year Vanderbilt will make two long road trips with hard games ahead, those with the University of Michigan at Ann Arbor and with the University of Texas at Dallas.

The Tennessee Association for relief of Ex-Convicts which has its central central office in Nashville, has begun a campaign to establish branches of the organization to every county in the State. This extension of the organization work is stated to be for the purpose of interesting every section of the state in the work of the society which helps provide advice, food and clothes and other living necessities to men who have been freed or paroled while they are reestablishing themselves.

## CANCER CAN BE AND HAS BEEN CURED!

IN the early stages surgery is able to eliminate cancer completely. X-Ray and radium are also of value and are effective in certain types of cancer. It is therefore very important, if you have any of the signs mentioned, to be examined by your doctor at once. DO not delay, even for a day.

WHERE CANCER IS CONCERNED "HE WHO HESITATES IS LOST!" ACT NOW MEDICINE ARE USELESS.

Remember that medicines are useless. They may relieve pain but they do not destroy CANCER. There is only one way to get rid of CANCER—IT MUST BE DESTROYED AN OPERATION IS THE SUREST WAY.

If you have slightest doubt or suspicion about yourself, SEE A DOCTOR AT ONCE! DELAY MAY CAUSE YOUR DEATH. SEE YOUR DOCTOR

lishing themselves. Obtaining jobs for former prison inmates also is one of the objects of the association.

According to a report just issued by the Nashville office of the United States agriculture continued dry weather has greatly retarded plowing and crops generally have suffered in Tennessee.

The corn crop is said to have been more affected by the drought than any other with the result that the corn yield is considerable below the average.

The tobacco is held to be fairly good.

Improvement in the Irish potato crop is noted with a decided decline in the output of sweet potatoes. The Irish potato crop is estimated at 2,856,000 bushels compared with 1,820,000 last year. The peanut yield is stated to have fallen off heavily.

Already the Democrats have begun to talk about the organization of the Democratic committee and the state offices at the Capitol. The committee will meet soon and the legislative session is only 60 days off.

It's going to be a rip-roaring session, too. The state tax and highway department are going to be reorganized thoroughly. Useless state officials are going to walk the plank. The sliding scale as applied to land assessments will go to glory. The 8 per cent interest law will go to Halifax. The land tax will be reduced at least \$1,000,000. A tax on gasoline will be levied. State offices will be consolidated. The back tax system will be hanged until it's dead, dead, dead.

And was to the Democrat who falters in this program. The administration will build up a back wash of public sentiment against him at home that'll make him wish he had never seen Nashville. His name will be Mud, his last name Trouble, and there's dirty work at the cross-roads in store for him.

Even when congress is in session there are those who believe our foreign missions are as important as our home ones.

It's pretty hard to make a clean get-away with filthy lucre that doesn't belong to you

It would be right amusing, if it were not so serious, to see how some Church members object to a preacher because he does not draw full congregations at night, when they do not help to make up the congregation a night.—Midland Methodist.

## GALVANIZED ROOFING

We can furnish you Five-V and 1 1-4 Corrugated Galvanized Roofing in 6, 7, 8, 9, 10 feet.

Don't put off buying your roofing. The rains are coming and Winter will soon be here.

We have all kinds in stock, give us your order
